

**Subject: RMSS Scoring Issues Resolved**  
**Importance: High**

**URGENT! Please disseminate this information to your district HR and Maintenance MSS coordinators immediately.**

The ratings issues in OASYS have been resolved and Notice of Results (NOR) will be available for viewing on Saturday, August 8. The viewable NORs will have an issue date of August 7, 2009 or later.

MSS coordinators must ensure that each employee who has participated in RMSS processes is provided with a copy of his/her NOR that has an issue date of August 7, 2009 or later. NORs with earlier dates are no longer applicable.

You may now proceed with inputting structured interview ratings in OASYS for employees **after** you have reviewed their NORs for exam 955 dated August 7 or later and confirmed that the employees received eligible ratings for the job groups for which they were interviewed. If the employees NOR dated August 7 or later shows that an employee received **ineligible** ratings on exam 955 for a job group for which they were interviewed, do not input the ratings from the structured interviews for that job group.

Do not schedule a structured interview for an employee until you have confirmed, by viewing a NOR in OASYS dated August 7 or later, that the employee received an eligible rating for the job group of the position for which they applied.
