(LDC 45 Efficiency Process) &

Window Operation Survey And Daily Schedule (WOS)

A Guide to: LDC 45 DOLLAR\$ & SENSE
(LDC 45 Efficiency Process) &
Window Operation Survey And Daily Schedule

When I received calls concerning whether National was notified about WOS I stated emphatically, no. However, I would check with the United States Postal Service just in case. For a while I received no response. Upon my second inquiry, which was a reminder of the first, I was told the American Postal Workers Union was notified, which I replied give me the date and subject because I had nothing under WOS. The USPS gave me several subjects none of which I had. The USPS then said we gave you a book on the subject. I called back and said I have no book on the subject. The USPS said we will check our letter to Moe on the subject. The USPS called and said we sent a letter to Moe on September 20, 1999 on the subject. I checked Moe's letter to us for discussion and found the reference subject: IRT Retail Analysis Profile, which I had a file on with a book called A Guide To LDC 45 Dollars and Sense (LDC 45 Efficiency Process). I called back the USPS and said I have that subject, but it had nothing to do with WOS. They said check the second page at the top, and the third and fourth and so forth (attached). I said this was restricted to IRT and is nothing like the WOS sent to the field covering all offices (attached). The USPS said it was intended to cover all offices. And I said, you did not tell me.

This is just a brief report the way things go at headquarters, which is not much different from the field.

Window Operation Survey (WOS)

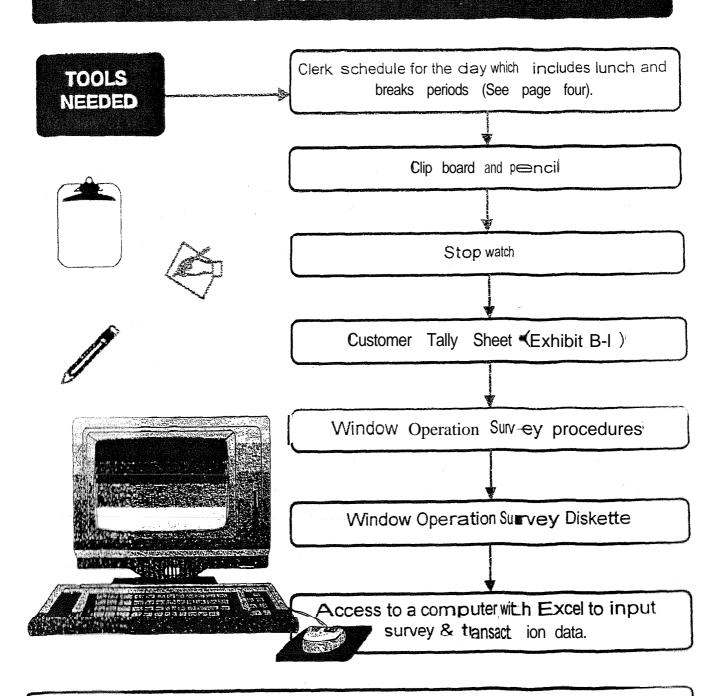

The Function 4 Window Operation Survey is an accurate, cost effective toot that enables users to balance window staffing with costs and customer satisfaction. If properly conducted and evaluated, the survey will enable the postmaster to provide window service that better-meets customer's demand. It will tell the postmaster what was sold, and when it was sold. The survey can indicate peak and slack times by both hour and day to help properly staff for breaks, lunches and non-scheduled days. The tool will help in determining optimenum staffing by unit.

Getting Started

The person performing the review must fully understand the Function 4 window audit procedures before getting started. If any procedure of the audit is omitted, the Function 4 Window Operation Survey could be invalid. The information acquired from the worksheets, which is vital in creating a more efficient operation, includes the following:

Window Operation Survey (WOS)

The person conducting the review must devote full time and attention to the window operation. The individual must be aware of and record many activities that are 'occurring simultaneously.

Consequently, distractions must be minimized.

WOS Process

- Observation
 - 2 weekdays and Saturday
- Analysis
 - Identify Service level/Inefficiencies
 - Develop recommended solutions
 - Determine productivity level

WOS Process

Pre-Exit/Exit Conference

- Negotiate productivity
- Develop Action Plan
- Gain Commitment to Plan

Follow-Up

- On-site in 14 days/30 days
- Monitor report on ongoing basis

What Have We Identified?

- Level of service provided customers
- Best practices
- Operational inefficiencies
- Workload for the unit
- Window staffing needed to meet service needs
- Image projected to customers
- Anomalies that may impact the units operation

DAILY SCHEDULE BENEFITS

- Matches Staffing to Customer Demand
- Schedules Clerks in 1/2 Hour Time Increments
- Tracks Workhours and Productivity Daily
- Reinforces Daily and Weekly Goals
- WOS Data to predict customer Flow

Pre- Exit Conference

- Who must Attend
- Purpose/Objective to be realized

Desired Attendees

- Retail Manager
- MPOO/Host City Postmaster
- WOS Team Leader

WOS/DAILY SCHEDULE WOS PRE-EXIT CONFERENCE

Purpose

- Discuss results of the WOS Survey
- Discuss analysis and observations
- Explain WOS/Daily Schedule relationship
- Explain target productivity
- Confirm the Exit Conference date and time

Exit Conference

- Who must Attend
- Purpose/Objective to be realized

Desired Attendees

- Postmaster /Unit Manager
- District Retail Manager
- MPOO
- WOS Team Leader
- Supervisor

Purpose

- Discuss results of the WOS Survey
- Discuss analysis and observations
- Explain WOS/Daily Schedule relationship
- Explain target productivity
- Complete action plan

Follow-up

- Purpose
- **Tools**
- **■** Timeframes

PURPOSE

- Ensure Service Standards are Met
- Verify Action Plans are Implemented
- Ensure Target Productivity is Accomplished
- Identify issues preventing success

TOOLS

- Ease of Use Index
 - Waiting Time in Line
 - Waited in Line More than 5 Minutes
- Mystery Shopper
 - Operational Efficiency (wait time in line)
- Workhour Performance reports

WOS/DAILY SCHEDULE FOLLOW-UP AND EVALUATIONS

Timeframes

- 14 day
 - On-site observation
 - Weekly FLASH
 - Weekly Recap Sheet
- 30 day
 - Weekly Recaps
 - FLASH
 - Mystery Shopper/EOU
- Ongoing as necessary

Review

- Pilot Performance
