Dear Sisters and Brothers:

Attached is the revised jurisdiction package and implementation provisions that were issued by the Postal Service on November 15, 1978. The Postal Service mailed this to their Regional Offices and the Regional Offices will disseminate it to the MSC offices, who in turn will disseminate it to the smaller post offices. Therefore, you will have a copy on hand probably before your local postmaster or your Employee Labor Relations man receives it. However, this package goes into effect as of November 15.

All grievances that you have filed on jurisdiction, please disregard them upon receipt of this package because all jurisdiction issues will be resolved under these guidelines. So any jurisdiction grievances at step 3 or step 4 should be returned to the local office or put in "file 13" because as of November 15, 1978, they are obsolete.

All local general presidents and administrative vice presidents should see that each and every steward has a copy of the implementation provisions.

If you have any questions concerning this jurisdiction package you should forward them to your Regional Director. All Regional Directors and the Education Director will be called into Washington in the next couple of weeks for a briefing on this jurisdiction package.

MAIL PROCESSING WORK ASSIGNMENT GUIDELINES

U. S. Postal Service
November 15, 1978

IMPLEMENTATION CRITERIA

In implementing clerk-mail handler work assignments, no postal installation shall increase the number of employees solely as a result of this instruction. Furthermore, all actions taken relative to implementation must be consistent with an efficient and effective operation.

1. Four (4) Hours Criteria: If there are four (4) or more hours of continuous work consisting of one or more work functions in one or more operations designated to the same primary craft, the performance of the work should be assigned to an employee of the primary craft.
2. Where the functions of obtaining empty equipment, obtaining unprocessed mail, loading ledges and sweeping are an integral part of the distribution function and cannot be separated, the entire operation will be assigned to the primary craft performing the distribution activity.
3. No employee's current duty assignment will be modified by removing functions designated to another primary craft until and unless such duty assignment becomes vacant through attrition.

4. Assignment of new or additional work, not previously existing in the installation, shall be made in accordance with primary craft designations pursuant to the criteria set forth above.
