Re: See Attached List

Dear Mr. Neill:

Recently, you met with David Stanton in a prearbitration discussion of the above-referenced cases.

The issue in these cases is whether the performance of lobby sweeps by management is a violation of the National Agreement.

After reviewing this matter, the parties mutually agreed that the interpretive aspects of these grievances were addressed by National Arbitrator Snow in his award in case AC-N-6922. Accordingly, we agreed to remand these cases for application of the principles set forth in that award.

Please sign and return the enclosed copy of this letter as your acknowledgment of agreement to remand these cases, and to remove representative case H1C-3P-C 46036 from the pending national arbitration listing.

Sincerely,

Anthony J. Vegliante

ARTICLE	1
SECTION	6
SUBJECT	LOBBY SWEEP
	TO FILE

Re: See Attached List

Dear Mr. Thompson:

Recently, Ms. Joyce Ong and I met with your representative, Mr. Jon Numair, to discuss the referenced grievances at the fourth step of our contractual grievance procedure.

The issue in these grievances is whether the performance of "lobby sweeps" by management is a violation of the National Agreement.

The union has recently conceded in separate Step 4 grievance decisions that management may perform lobby sweeps. It is now attempting to change its position. The union's current position is that "lobby sweeps" do not include management obtaining accountable mail and parcels for customers. This position, which was raised for the first time in the grievance process at our Step 4 meeting, is apparently based on the union's interpretation of the recent Snow Award AC-N-6922. The union's current position is that any work that is associated with "moving the mail" (or involved in "advancing the mail forward") is bargaining unit work and may not be performed by supervisors or other non-bargaining managerial employees.

It is the position of the Service that the notion of what constitutes a lobby sweep includes such functions as getting parcels and accountable mail for postal customers but is not limited to these two activities. In the broadest sense we are all involved in the movement of the mail, so the union's position does not truly differentiate bargaining unit work from that accomplished by any other postal employee. We do not agree that it is supported in any way by the Snow Award. The Union's current position is also contrary to our previous mutual understandings at the national level and past practice regarding lobby sweeps.

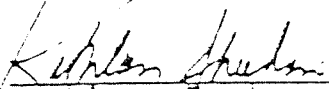

During peak periods of customer activity, management performs lobby sweeps to ensure good service and customer satisfaction. The grievance files reflect that the actual tasks performed by the managers involve minimal amounts of work and have been performed by management for years. There was no evidence presented by the union to show that lobby sweeps are exclusively bargaining unit work. Further, even if this was bargaining unit work, it can be done by Postal Service supervisors under certain circumstances. In sum, the union has presented no evidence which shows that management has violated the National Agreement.

Based on these considerations these grievances are denied.

Time limits were extended by mutual consent.

Sincerely,

Kathleen Sheehan
