Dear Bill:

As a matter of general interest, please be advised that Office Depot is now offering USPS shipping and mailing solutions as part of the existing Approved Shipper program in several locations. Office Depot will be offering the most commonly requested services including Express Mail, Priority Mail, and special services such as Delivery Confirmation and Signature Confirmation. The Approved Shipper program allows USPS to focus on package growth and on giving our customers alternate access to USPS products and services without adding any significant permanent infrastructure costs in an increasingly competitive market.

If you have any questions or concerns, please contact Patrick Devine at (202) 268-5421.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. W. Dockins".

*for* John W. Dockins  
Manager  
Contract Administration (APWU)
