

## CORONAVIRUS DISEASE 2019 (COVID-19) SUPERVISOR AND MANAGEMENT GUIDANCE

UPDATED: March 30, 2020

The Postal Service continues to monitor the spread of COVID-19 across the United States. The following information is provided to assist you as managers and supervisors to communicate with your employees.

### Key Facts to Emphasize:

- 1) While there is still much to learn about the unfolding situation involving the spread of Coronavirus Disease 2019 (COVID-19), the immediate health risk from COVID-19 is considered low for the general American public.
- 2) If you have employees exhibiting these symptoms: fever, cough, **and** shortness of breath, provide them with a surgical mask and require them to go home and seek medical attention. Then, inform the District Occupational Health Nurse Administrator (OHNA) immediately ([OHNA Contact Information](#)).
- 3) The best preventive strategies against COVID-19 to communicate to your staff are:
  - Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
  - Avoid touching your eyes, nose, and mouth with unwashed hands.
  - Avoid being exposed through close contact (i.e., within six feet) with other people to the extent feasible.
  - Stay home when you are sick.

### General Guidelines:

- Immediately report any communication you receive from the Public Health Office or Centers for Disease Control and Prevention (CDC) concerning an employee's health to your District Human Resources (HR) Manager and District OHNA. Your District HR Manager and District OHNA will provide you with instructions for future action.
- If an employee in your facility has contracted COVID-19 or has been directly exposed to someone with COVID-19, contact your District HR Manager or District OHNA for instructions.
- An FMLA packet should be generated for any employee who uses leave in conjunction with COVID-19.
- Allow liberal sick leave usage for employees who are sick.
- Ensure approved hand sanitizer (containing at least 60% alcohol) is available at work.
- Ensure CDC posters concerning COVID-19 are posted in appropriate locations.
- Deliver stand-up talks regarding COVID-19 in a timely manner.
- 4) Provide the contact information of your District OHNA ([OHNA Contact Information](#)) and District HR Manager to all employees under your supervision.
- Provide surgical masks to any employee who requests one, which can be ordered through eBuy Plus.
- Ensure Postal facility is cleaned daily as per the MMO-031-20, *Influenza and Coronavirus Cleaning Contingency*.
- Only advise other employees, if asked, that an employee has been "cleared" to return to work.
- Contact your District OHNA if an employee who tested positive is ready to return to work.
- Upon return from a confirmed COVID-19 related absence, any documentation the employee provides must be given to the OHNA.

### DO NOT:

- Require medical documentation for employees to return to work from a confirmed COVID-19 related absence.
- Request fitness-for-duty evaluations for employees to return to work.
- Share specific health information about any employee, including an employee who is suspected or who has been confirmed to have COVID-19.
- Make "medical decisions."

**Contact your District HR Manager or District OHNA if you have any questions.**
