up 2/12

On February 3, 1981, a Memorandum of Understanding was agreed to with the NALC on the issue of Maximization. A copy is attached. This Memorandum of Understanding satisfies our obligations under the Memorandum of Understanding dated September 15, 1978, which committed the parties to the development of criteria applicable by Craft for the establishment of additional full time duty assignments.

Detailed implementing instructions will be issued shortly and the Memorandum of Understanding will be discussed fully at the General Managers, City Delivery, meeting next week. No implementing actions should be taken until you receive instructions.

Eugene C. Hagburg
