Please share the following additional information with all personnel in your District who process VRA appointments.

This information amends our previous message regarding the expiration of VRA eligibility for Vietnam Era veterans (no change is being made to Post-Vietnam Era veterans eligibility expiration).

Vietnam Era Veterans - Vietnam era veterans who served on active duty between August 5, 1964, and May 7, 1975, HAVE EITHER 10 YEARS AFTER THE DATE OF THEIR LAST SEPARATION FROM ACTIVE DUTY, or until December 31, 1995, WHICHEVER IS LATER, to be considered eligible for VRA hiring consideration.

Additionally, there is no time limit for disabled veterans who have a compensable service connected disability of 30 percent or more.

We apologize for any inconvenience this may have caused. Questions may still be directed to Beth Campbell at (202) 268-3973. Thank you.
